

Installing EM Tree Desktop Application Release 9.1.33

1. In the Windows Control Panel, in Add/Remove Programs, check if a previous version of SAS Enterprise Miner Tree Desktop Application is installed. If it is installed, remove it, and proceed to the next step. If it is not installed, just proceed to the next step.
2. Using Windows Explorer, run a file search on the C:\ drive for the file EMTree9.exe. Delete all occurrences of this file.
3. Confirm that these folders are removed from the C:\ drive:
"C:\Program Files\SAS\Shared Files\Enterprise MinerClients\V9\nls\eng"
"C:\Program Files\SAS\Shared Files\SAS Diagram"
4. Reboot your computer.
5. In your browser, go to <http://support.sas.com>
 - a. From the links on the left side of this page, select Downloads & Hot Fixes under the Support heading
 - b. Select Software Downloads.
 - c. Under SAS System Software Products, select Enterprise Miner.
 - d. Under For SAS®9.1.3 SP4, select Enterprise Miner Tree Desktop Application (Release 9.1.33 – Updated June 2008).
 - e. At the bottom of the next page, download both the Systems Requirement Wizard for Enterprise Miner Tree Desktop Application, and Enterprise Miner Tree Desktop Application. SAS will require you to register first, so just go through the steps required for registration.
6. Run the Systems Requirement Wizard for Enterprise Miner Tree Desktop Application before you install the Enterprise Miner Tree Desktop Application.
7. Install version 9.1.33 of SAS Enterprise Miner Tree Desktop Application.
