

# Instructions for establishing the ability to use SAS OnDemand.

If you already have a SAS profile, go to [www.sas.com](http://www.sas.com), log in, and reset your password if you need to.

If you do not have a SAS profile, go to [www.sas.com](http://www.sas.com), and establish a SAS profile. On the SAS homepage, click on Log In.

On the Profile Login window, click on Create Profile.

The screenshot shows a web window titled "Profile Login". In the top left corner, there is the SAS logo with the tagline "THE POWER TO KNOW." To the right of the logo, the title "Profile Login" is displayed. Below the logo, there are two input fields: "E-mail:" and "Password:". To the right of these fields is a blue "Login" button. At the bottom left, there are two links: "Forgot Password?" and "Create Profile". A black arrow points from the underlined text "Create Profile" in the instruction above to the "Create Profile" link in the screenshot.

Supply the information in the required fields, and click on Create Profile. Once the profile is created, you need to wait for 30 minutes before registering for SAS OnDemand.
